

Product Notice No. 152

PSTN E1/T1 Framer and Line Interface Component Replacement on 1610 Blade Family

Notice Audience:

This Product Notice is intended for users of **Mediant 2000, Mediant 5000/TP-1610, Mediant 8000/TP-1610, TP-1610 and SB-1610.**

Notice Subject:

The PSTN Framer and Line Interface component on the TP-1610 blade has reached end-of-life (EOL). The PSTN Framer and Line Interface component replacement requires a software update which has been included on the various software releases listed below.

Notice Date:

June 25, 2012

Notice Effective Date:

June 25, 2012

Last Time Buy:

Customers wishing to submit Last Time Buy (LTB) are requested to do so by **November 30, 2012**. Last Time Ship date will be **December 31, 2012**. Please note that only limited stock is available for LTB. When submitting an LTB order, please add the following note "Supply with Framer Version 1.3", to the Purchase Order.

Notice Details:

1. The current PSTN E1/T1 Framer and Line Interface component (Infineon PEB22554 – Quad FALC v1.3) was declared by Infineon (component vendor), as end-of-sale in February 2009. AudioCodes has now reached end of stock of this component. AudioCodes expect stock to be depleted by December 31, 2012, all Mediant 2000, Mediant 5000, Mediant 8000, SB-1610 blades and TP-1610 blades shipped, will include the replacement PSTN E1/T1 Framer and Line Interface component (Infineon PEB22554 – Quad FALC v3.1), which requires a software upgrade as listed below.
2. Users of software versions older than the ones listed below should upgrade to at least the version specified under the "Specific cmp/System Software Version" column.

Note: Mediant 5000/1610 and Mediant 8000/1610 refer to Mediant 5000 or Mediant 8000 systems installed with TP-1610 blades.
