Empowered OSN Server for AudioCodes Mediant 1000B SBA Product Line for Microsoft® Lync™

Notice Subject:

Responding to market demand for high performance Survivable Branch Appliances (SBA), AudioCodes has upgraded its Mediant 1000B SBA product series with an empowered Open Solution Network (OSN) server.

Notice Date:

September 2014.

Notice Effective Date:

Immediate.

Notice Details:

AudioCodes has upgraded its Mediant 1000B SBA products as follows:

- **Mediant 1000B SBA-ES:** Now includes the powerful **OSN3B** server, replacing the OSN3 server edition.
- **Mediant 1000B SBA-EO:** Now includes a new high-performance OSN server - **OSN4** server - replacing the OSN3B server edition.

These models now comprise AudioCodes Mediant 1000B SBA product-line offering. Consequently, the legacy Mediant 1000B SBA (non-ES/EO) model is no longer available for order.

Note: The OSN platform for the Mediant 1000B is modular-based. Therefore, it is possible to replace and upgrade the OSN modules.

SBA Model	CPU	
	Previous	New
Mediant 1000B SBA-ES	Intel® Core™2 Duo 1.5 GHz (OSN3)	Intel® Core™ i7 3 rd Generation Dual-core with 4 GB memory (OSN3B)
Mediant 1000B SBA-EO	Intel® Core™ 3 rd Generation i7 Dual-core (OSN3B)	Intel® Core i7 3 rd Generation Dual Core 2.5 GHz with 8 GB memory (OSN4)

Note: As the OSN3 has been replaced by the OSN3B for the Mediant 1000B SBA-ES, the port interface support has changed. The OSN3B provides two Ethernet port interfaces, one USB port, one Micro-USB port for serial interface, and an HDMI port for connection to a monitor.

Affected Part Numbers:

The refreshed Mediant 1000B SBA ES/EO models apply to the following existing CPNs:
