- Mediant 500
- Mediant 500L

Note: The affected products listed above include all flavors (E-SBC, Gateway and MSBR).

Notice Details

This Product Notice is an official announcement by AudioCodes that the FXS SLIC component on the Mediant product line with analog interfaces (see Affected Product Family) has reached End-of-Life (EOL).

The FXS SLIC components that are used by Mediant 1000B, Mediant 800/B, Mediant 500 and Mediant 500L were declared by the SLIC component's vendor as EOL. Thus, from September 2016, this Mediant product line will be shipped with an updated FXS component version. This new FXS SLIC component is compatible with the software versions listed in the table below:

Product	Compatible Software Version
Mediant 1000B Gateway/E-SBC	<ul style="list-style-type: none">Version 6.8: 6.80A.270.002 and laterVersion 7.0: 7.00A.021.004 and later
Mediant 800, Mediant 800B and Mediant 500 Gateway/E-SBC	<ul style="list-style-type: none">Version 6.8: F6.80A.281.002 and laterVersion 7.0: 7.00A.029.002 and later
Mediant 500L Gateway/E-SBC	7.00A.029.002 and later
Mediant 800/B MSBR and Mediant 500 MSBR	F6.80A.281.002 and later
Mediant 500L MSBR	F6.80A.281.002 and later

Note:

- All software versions support the old FXS SLIC component.
- Customers wishing to purchase any of these products and use them with software versions that are **not** compatible with the updated FXS SLIC components, should submit a Last Time Buy (LTB) by **August 2016**.
