

Product Notice #334

End-of-Sale Announcement of HP ProLiant DL360 G8 Server for AudioCodes One Voice Operations Center (OVOC)

Overview

This Product Notice announces the End-of-Sale of the HP ProLiant DL360 G8 server, which was sold as the dedicated OVOC server Linux Installation platform for the AudioCodes OVOC. It is now sold with the new HP ProLiant DL360 Gen10 server.

This Product Notice is a formal notification by AudioCodes of the End-of-Sale status for using the HP ProLiant DL360 G8 server as the dedicated OVOC server Linux Installation platform for the AudioCodes OVOC management and monitoring tool. This is due to Hewlett-Packard's (HP) End-of-Life announcement for this server.

AudioCodes has replaced the HP ProLiant DL360 G8 server with the new HP DL360 Gen10 server for installing the OVOC on dedicated hardware. New orders for OVOC server Version 7.4.3082 and later will be shipped with the HP DL360 Gen10 server.

AudioCodes will continue supporting the HP ProLiant DL360 G8 server for OVOC Versions 7.4 and 7.6. However, the HP ProLiant DL360 G8 server will no longer be supported from Version 7.8 (expected around Q3/2019). For Versions 7.4 and 7.6, Description Documents relating to patches and Release Notes associated with major releases will include separate capacity information for the HP ProLiant DL360 Gen8 and HP DL360 Gen10 servers.

Affective Date

July 1, 2018

Specifications

The specifications of the new HP DL360 Gen10 server are listed in the table below:

Specifications	
Processor	Intel® Xeon® Gold 6126 (12 cores, 2.60 GHz)
Memory RAM	64 GB
Hard Disk Drive	2 x 1.92TB SATA SSD
Network Interface Cards	1 GbE x 4 Ports; 10 GbE x 2 Ports
Power supply	2 x 500 W
iLO	HPE iLO Advanced Service 3-year License

Due to the enhancements in the hardware specification, the OVOC server price was adjusted in the latest AudioCodes Version 5.8 Price Book released in July 2018. Please contact your local AudioCodes distributor for more details.
