

Product Notice #0346

-- Software Update with Security Vulnerability Patch -- 400HD Series IP Phones for Skype for Business

AudioCodes has released a new software update for its 400HD series IP Phones for Microsoft Skype for Business environments.

The software update version is **3.1.2.89.11.2**. AudioCodes Customers are encouraged to update their IP Phones to this latest software version.

This software update includes an important security vulnerability fix that blocks a "man-in-the-middle" (MITM) attack from gaining the end user's username and password in specific scenarios.

Note: This security fix is not applicable to deployments that use the pin-code method for signing in to the Skype for Business IP Phones; only to deployments that use the username-password sign-in method.

Effective Date

Immediate

Affected Products

- 405HD IP Phone
- 430HD IP Phone
- 440HD IP Phone
- 450HD IP Phone
- Huddle Room Solution (HRS)
