

Product Notice #0362

Security Changes for Skype 3PIP IP Phones (OAuth 2.0)

AudioCodes latest General Availability (GA) software versions for its certified Skype for Business 3rd Party IP Phones (3PIP) comply to new security protocols based on the OAuth 2.0 authorization protocol, as described in the [Microsoft Skype for Business blog](#).

Microsoft has confirmed that the updated affective date of the [Microsoft Identity Platform 2.0 program](#) is January 15th, 2020.

AudioCodes Customers using AudioCodes Skype for Business certified IP Phones must immediately [upgrade the IP Phones to the latest GA software versions](#) and run specific tenant approval steps to ensure that the IP Phones will continue to operate successfully with Office 365.

For more information, including supported software versions and applicable environments, go to AudioCodes [OAuth 2.0 and Third-Party Application ID Update](#) web page.
