Abbreviations and Terminology

Abbreviation / Term	Definition
Basic (Degree of Interop)	Interoperability that AudioCodes successfully achieved by proving interconnectivity and basic call scenarios
CA	Call Agent
CMTS	Cable Modem Termination System
COPS	Common Open Policy Service
DUT	Device Under Testing
Full (Degree of Interop)	Interoperability and certification that AudioCodes and third-party vendors successfully achieved by proving full interconnectivity and advanced call scenarios (including features), according to AudioCodes' and third-party vendors interoperability test procedures
GK	Gatekeeper
GW	Gateway
H.248	Also known as MEGACO control protocol
LE	Local Exchange
MG	Media Gateway
MGC	Media Gateway Controller
MGW	Media Gateway
MSBR	Multi-Service Business Router
MTA	Multimedia Terminal Adaptor
NAT	Network Address Translation
SBC	Session Border Controller
SC	Shelf Controller
SSW	Softswitch
UA	User Agent (SIP endpoint)

Introduction

This document provides a comprehensive list of third-party vendors and their products with which AudioCodes products have successfully achieved interoperability status. Full details pertaining to the specific telephony, IP telephony, and related companies' products with which AudioCodes' devices have proven interoperability and to the degree of interoperability are presented in this document.

This Interoperability List contains interoperability tests performed with AudioCodes Software Version 6.6 or later.

AudioCodes' products have successfully achieved interoperable capabilities with third-party vendors in a wide range of VoIP environments:

- Softswitches
- IP PBXs
- Standard PBXs
- Soft phones
- VoIP phones
- VoIP application servers:
 - ✓ Voice mail
 - ✓ Unified messaging
 - ✓ Media servers / IVR (Interactive Voice Response)
- Local exchange simulators
- MCUs (Multipoint Conferencing Units)
- MTAs (Multimedia Terminal Adaptors)
- CMTSs (Cable Modem Termination Systems)
- Firewalls, NATs and Session Border Controllers (SBCs)

AudioCodes offers the following levels of interoperability:

Table 1: AudioCodes Interoperability Levels

Interoperability Level	Description
Basic	Basic testing has been done with the DUT.
Full	Full certification testing has been done with the DUT.

Interoperability List

The table below lists the SIP Trunking providers (ITSP) and other products (e.g., IP PBX and SIPRec servers, and call centers) with which AudioCodes has successfully proven interoperability.

You can find the most updated list on AudioCodes website at <https://www.audiocodes.com/partners/sbc-interoperability-list>.
